Student Support Service fees are assessed and based on prior experience with students who have learning, physical, behavioral/social needs.

*The services described here depend on the needs that occur beyond the "original" accommodation or action plan created. Services include parent meetings, emails, phone calls, and/or other time-related activities involving the plan and/or student assistance (ie field trip assistance). The time to monitor and supervise a plan varies from child to child. Therefore, the fees have a range that the SSS Coordinator/teacher will determine each quarter.

^ TUTORING FEES:

- SSS Teachers: \$24/hour
- Secondary Student Tutors: \$10 -14/hour
- Teacher Tutors: \$20-30/hour
