\*Student Support Service fees are assessed and based on prior experience with students who have learning, physical, behavioral/social needs.

\*\*The services described here depend on the needs that occur beyond the "original" accommodation plan created. Services include parent meetings, emails, phone calls, and/or other time-related activities involving the accommodation plan and/or student assistance (ie field trip assistance). The time to monitor and supervise an accommodation plan varies from child to child. Therefore, the fees have a range that the SSS Coordinator/teacher will determine each quarter.

^ TUTORING FEES:
