To offer convenient testing options to students in every nation and from a variety of originating sources; including educational institutions and language centers, FCA student applicants can choose to provide results from any one of the pre-approved tests listed above. Students should reference the grade level for which they are applying to determine the required score. If you have taken a globally recognized language assessment and would like to submit that in lieu of one of the tests listed above, please contact us at Intldept@fcalions.org with a copy of the official results and we will review them to determine if they meet the requirement.

These standards represent a pre-determined minimum score at the time of application and are subject to change at the discretion of FCA Secondary Leadership without notification. English proficiency is one of many factors considered during the admissions process.

Official test results should be sent directly to FCA's International Student Program office at Intldept@fcalions.org. For questions relating to the English Language Proficiency Standards, or any part of the application process, please contact (407)-275-8031.

FCA's TOEFL code is D834
